Dear Diary as I introduce to you a group of active, young, human power houses. I you plan to hold between your covers the daily happenings of these young americans, you are assuming a responsibility of ponderous proportions. I may comfort you, however, to know that underneath their current outbursts you will discover personalities upon you will discover personalities upon whom you may confidently rely with a jelling of calmness and security.

Miss Carolyn Beckham to uhom we have chosen to dedicate helped to carry rut the projects the year-hook all the work on
